B200T4 Compact IV

20 m

The GSR B200T4 platform reaches a new level in its telescopic range on 3,5t vehicles. While maintaining its traditional rigidity and sturdiness, this model introduces several significant elements of innovation offering improved outreach with reduced footprints.

This machine is simple to use and technologically advanced, with stabilizers in compact version, reduced length and horizontal outreach up to 10,85 m, it confirms the high-quality standards and innovation of GSR products.

GSR
AERIAL PLATFORMS

www.gsrspa.it

- Horizontal outreach until 10,85 metres and basket capacity up to 250 kg
- Stabilizers within the vehicle width
- 4-stage telescopic boom for compact dimensions, even in length
- Simple and intuitive controls
- Advanced security systems, precise and immediate in use
- Light weight but robust structure
- Compact and balanced on the road like a normal car
- Easy and intuitive, ideal for self-drive hire
