

# B200PX

## COMPACT IV

20,6 m

The GSR double articulated platform B200PX allows to reach a **maximum horizontal outreach of 9 meters**. This machine maintains the stabilization “in shape”, with the result of being particularly compact.

Simple to use and technologically advanced, this model keeps the traditional levels of rigidity and sturdiness of the PX series and confirms the high-quality and innovation standards of GSR products.
